summary

Mohamed Ahmed, an 18-year-old front-end developer from Tanta, Egypt, with one year of experience in the field. I have worked on building and designing interactive user interfaces using HTML, CSS, and JavaScript, along with completing training projects using modern libraries and frameworks such as Tailwind, Bootstrap, MUI, React, and Next.js. My skills include developing responsive websites, creating cross-device compatible designs, integrating with APIs, and utilizing TypeScript and ECMAScript to optimize code efficiency. I am always eager to improve my skills and stay up-to-date with the latest web technologies .

Education

Tanta Military Electrical School, Electronics Department   October 2022 – Now
